Reports Find Police Shooting of Tamir Rice 'Reasonable'

(Reuters) Two outside experts have concluded a Cleveland police officer's fatal shooting of a 12-year-old boy who was carrying a toy gun was a reasonable response to a perceived threat, according to reports released by an Ohio prosecutor's office on Saturday. The independent conclusions submitted to the Cuyahoga County prosecutor's office come ahead of an expected decision by a grand jury on whether criminal charges are warranted in the November 2014 shooting of Tamir Rice, which was captured on surveillance video. Cuyahoga County Prosecutor Timothy McGinty said in a statement his office was not reaching any conclusions based on the reports, but an attorney for Rice's family criticized the reports as a "whitewash." Rice was black while the officer who shot him is white, and the case is one in a series of high-profile deaths of African-Americans at the hands of law enforcement which have raised questions about the use of force by police. Retired FBI agent Kimberly Crawford, in a review of the shooting, wrote that it was "apparent not only was Officer Loehmann required to make a split-second decision, but also that his response was a reasonable one." In another report, Colorado prosecutor S. Lamar Sims also concluded that "Officer Loehmann's belief that Rice posed a threat of serious physical harm or death was objectively reasonable, as was his response to that perceived threat."

International News – Significant Events

Suicide Bombings Kill 95 People at Ankara Peace Rally

(AP) Nearly simultaneous explosions targeted a Turkish peace rally Saturday in Ankara, killing at least 95 people and wounding hundreds in Turkey's deadliest attack in years — one that threatens to inflame the nation's ethnic tensions. There was no immediate claim of responsibility but Prime Minister Ahmet Davutoglu said there were "strong signs" that the two explosions — which struck 50 meters (yards) apart just after 10 a.m. — were suicide bombings. He suggested that Kurdish rebels or Islamic State group militants were to blame. The two explosions occurred seconds apart outside the capital's main train station as hundreds of opposition supporters and Kurdish activists gathered for the peace rally organized by Turkey's public workers' union and other groups. The protesters planned to call for increased democracy in Turkey and an end to the renewed violence between Kurdish rebels and Turkish security forces. The attacks Saturday came at a tense time for Turkey, a NATO member that borders war-torn Syria, hosts more refugees than any other nation in the world and has seen renewed fighting with Kurdish rebels that has left hundreds dead in the last few months. Many people at the rally had been anticipating that the rebels of the Kurdistan Workers' Party, or PKK, would declare a temporary cease-fire — which it did hours after the bombing — to ensure that Turkey's Nov. 1 election would be held in a safe environment. Turkey's government late Saturday raised the death toll in the twin bomb blasts to 95 people killed, 248 wounded. It said 48 of the wounded were in serious condition.

SITUATION SUMMARY

Train Derailment, Oakland, Alameda County – Hazardous Material Spill Report # 15-5983

- On 10/11/15 at 0416 hours, Union Pacific Railroad (UPRR) advised rail car MP643522 derailed on its side during a shoving operation at MP 5.5 Niles Subdivision in the West Oakland Rail Yard. The railcar is empty and it last contained plant waste. There were no injuries, no hazardous material release, and no mainline closure associated with this incident. Notifications were made per CSWC SOP.

Castella Water Tank Rupture, Shasta and Siskiyou Counties

- Cal OES Inland Emergency Services Coordinator (ESC) Ron Quigley was notified by Cal OES Assistant Fire Chief Ken Hood of a water situation in Castella, south of Dunsmuir on the Shasta/Siskiyou County line. Per Chief Hood, the domestic water infrastructure ruptured on the evening of 10/08/15, causing the water system to completely drain.
- ESC Quigley spoke with Dunsmuir Fire Chief Dan Padilla who was on-scene at the Castella water tank. Chief Padilla advised Castella's water tank infrastructure ruptured and lost 300,000 gallons of water over a 6 hour period.
- ESC Quigley advised the following as of 2000 hours on 10/09/15:
 - A boiled water requirement is being issued for the community of Castella.
 - Shasta County sent people door to door to notify residents.
 - Shasta County wants to assure the water has no contaminants, so they are going to test the water on Monday morning. It takes 24 hours to get the test results and they advise they should have the test results by Tuesday morning.

City of Yreka Water Main Break, Siskiyou County

- Per Cal OES IDO: A water supply line suffered a break on 10/09/15. The city is currently under a boil water order. Per State Water Board Division of Drinking Water, samples were taken on 10/10/15 for testing. Fairchild Medical Center is currently operating from potable water trucks.

Fleet Week, San Francisco, San Francisco County

- Fleet Week Activities run through October 12th. Activities include the Blue Angels performing, parade of ships on the Bay and ship tours.

Cal OES Activation Status

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A warming and drying trend can be expected today through much of the workweek, with generally sunny skies across much of the interior. Temperatures will reach well above normal values by Tuesday and Wednesday.

Medford Weather:

High pressure aloft will continue to gradually build through midweek and then begin to shift east late in the week. A thermal trough will also develop along the South Coast, which will result in at least offshore flow. All of this will lead to a sunny, warm, and dry week ahead for most of the region's inland areas from the coast. There will be the usual night time stratus intrusions at the North Coast, but the South Coast will tend to be clear with offshore flow.

Reno Weather:

Strong high pressure will build back over northeast California and western Nevada today and persist through Wednesday, bringing well above average to near record temperatures along with lighter winds. Low pressure moves into California and Nevada Thursday and Friday for cooling temperatures and a chance for showers.

San Francisco Weather:

Dry weather will continue through Tuesday and a warming trend is expected on Monday and Tuesday. A low pressure system currently located west of the Baja Peninsula will move to the northeast and into southern California by the middle of the week, possibly resulting in precipitation over the southern portion of the forecast area by Tuesday night or Wednesday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Mostly clear with above normal temperatures through midweek. End of next week could see more clouds and mountain showers as a weather system moves up from southern California.

Hanford Weather:

High pressure over the west has allowed for warmer than average temperatures to dominate the weather pattern. These conditions will continue through the middle of the coming next week. Temperatures will lower slightly on Sunday as a weak onshore flow is expected to develop.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will gradually weaken, cooling a few degrees each day through at least midweek. A trough of low pressure and subtropical moisture will increase the humidity and may bring a chance of showers to the mountains and deserts on Monday and Tuesday.

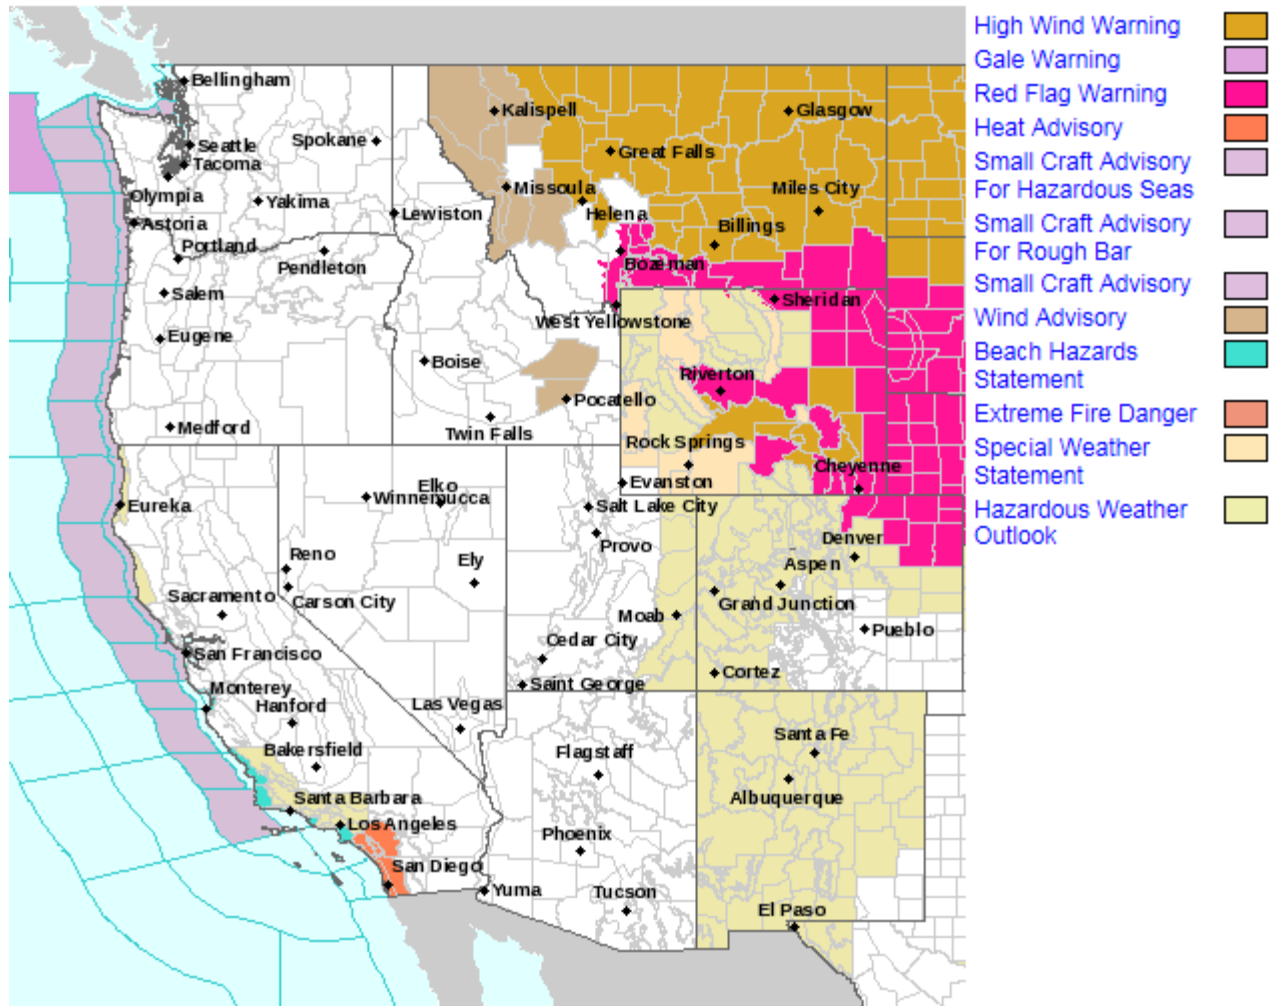

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure aloft will continue hot dry weather today. A low pressure system to the southwest will move slowly inland across central and southern California the latter half of the week. This will bring increasing moisture with a chance of showers and thunderstorms, more likely in the mountains and deserts and during the afternoons and early evenings. This will also bring a cooling trend with high temperatures returning to near to slightly above average for late in the week.

Southeast California Weather:

A low pressure system across northern Mexico will continue drifting westward leaving the southwestern states under a tranquil weather regime into the middle part of the upcoming workweek. Well above normal temperatures will persist through at least Wednesday with many lower desert locations seeing highs approaching or reaching 100 degrees. Thereafter, a low pressure system will bring cooler temperatures, increased cloudiness and a chance of rain to the region for the end of the week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 60 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 27 Counties: Butte, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County) and City of Willits (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
